

# Governor's Weekly Message: Universal Recycling Benefits Environment, Economy

Wilmington – In his weekly message, Governor Markell highlights Delaware's progress in recycling since Universal Recycling legislation was signed into law in 2010. "Four years after adopting a comprehensive and practical plan, we have dramatically increased recycling in Delaware, generating significant economic and environmental benefits while reducing waste management costs," said Governor Markell. "By educating the public, supporting businesses and enhancing services statewide, our recycling rates will continue to grow and we'll keep Delaware moving forward."

Every week, the Governor's office releases a new Weekly Message in video, audio, and transcript form. The message is available on:
