Lewes – In his [weekly message](#), filmed at [Lewes Dairy](#), Governor Markell highlights Local Produce Week and the significant impact the agricultural industry has on Delaware's economy.

“Events held across the state were meant to showcase the quality of the products our farm families grow, along with the tremendous impact their businesses have on our economy,” said Governor Markell. “Supporting local farmers and enjoying the fruits of their labor means you get to enjoy some of the freshest products possible, while continuing to support one of the oldest industries in our state and that will keep Delaware moving forward.”

Every week, the Governor's office releases a new Weekly Message in video, audio, and transcript form. The message is available on:
