Dover, DE – In his weekly message, filmed at Calpine's Garrison Energy Center, Governor Markell highlights ongoing efforts to address climate change and strengthen our economy.

"The Garrison Energy Center's opening marks another milestone in making Delaware a leader in building the energy future we want for ourselves, our children, and many generations to come," said Governor Markell. "It complements our state's efforts to transform old power plants, invest in renewables, and make our buildings more energy efficient to reduce pollution and costs. By continuing to work with the private sector toward cleaner, more reliable, and more efficient energy, we'll keep Delaware moving forward."

Every week, the Governor's office releases a new Weekly Message in video, audio, and transcript form. The message is available on:
