

Delaware Launches Full-Scale Sports Gaming

VIDEO: Full-scale sports gaming launches in Delaware

At 1:30 p.m. on Tuesday, June 5, Delaware launched a full-scale sports gaming operation at all three casinos in the state – [Delaware Park](#), [Dover Downs Hotel & Casino](#), and [Harrington Raceway & Casino](#). Betting offered Tuesday included single-game and championship wagering on professional baseball, football, hockey, basketball, soccer, golf, and auto racing.

The Delaware Department of Finance, in consultation with the Attorney General's Office, has determined that there are no legal obstacles to moving forward with full-scale sports betting in Delaware following the U.S. Supreme Court decision on May 14 to overturn the Professional and Amateur Sports Protection Act. Under state law passed in 2009, Delaware may authorize betting on professional and collegiate sports, with the exception of games involving Delaware-based teams.

To prepare and educate new consumers, the Delaware Lottery has [published](#) an online "how-to-bet guide" for SportsPick, the Delaware sports gaming product.
