

Renew Your Delaware Business License Online

The Delaware Division of Revenue online business license system is now open for 2019 renewals. Any business whose license expires on December 31, 2018 may visit de.gov/renew to renew using a credit card, debit card, or by direct debit from your bank account. This convenient online service is available 24 hours a day, seven days a week – and it's fast, easy, and secure.

More than half of Delaware's licensed businesses use the online renewal service, which is convenient, and allows you to print a temporary license directly from your computer – a benefit for any business that requires immediate proof of current licensing, such as contractors and businesses receiving government payments. Additionally, you may elect to renew your license for one year or for three years.

To complete the online renewal, you will need your Tax ID Number as well as your Business License Number. You'll find your Business License Number on your current license or on the annual License Renewal Notices that will be sent to businesses later in November.

For more information, please contact the business license office at (302) 577-8778 or BusTax@delaware.gov.
