

# **Weekly COVID-19 Update-Nov. 13, 2020: New Daily Cases Continue to Spike; Hospitalizations, Deaths Continue to Increase**

DOVER (Nov. 13, 2020) – The Delaware Division of Public Health (DPH) is providing an update on the most recent statistics related to coronavirus disease 2019 (COVID-19) in Delaware, as of 6 p.m. Thursday, November 12, 2020.

A total of 28,016 positive cases of COVID-19 among Delaware residents have been reported to DPH since March 11, 2020, including 14,571 individuals who are considered recovered. The number of new daily cases each day this week has remained elevated with the seven-day average of 279.4, as of Thursday, Nov. 12. Delaware saw its largest single-day case total since May with 465 new cases reported on Thursday, Nov. 12.

The seven-day average for the percentage of persons who tested positive for COVID-19 increased from 10.2% as of Nov. 5, to 12.8% as of Thursday, Nov. 12. DPH now publishes both positivity rates – persons tested and total tests conducted – on its COVID-19 data portal. As of Tuesday, Nov. 10, the seven-day average for the percentage of total tests that were positive was 4.8%, up from 3.9% as of Nov. 3. There is a two-day lag for presenting data related to percent of tests that are positive to account for the time delay between the date of the test and the date that DPH receives the test result.

In addition, 130 individuals are currently hospitalized due to COVID-19 in Delaware, an increase of 16 from the total as of last Friday's update. Twenty-two of the hospitalized persons

are critically ill, down five from last week.

The Division of Public Health recommends Delawareans take the following actions to prevent further spread of infection in the community:

- Only dine socially (at home and in restaurants) with those who live with you
- Don't spend time socially with people outside your household
- Don't plan on holding holiday dinners with those outside your household – even family

“What we can see in our data is that social gatherings, whether at a house party, casual dinner, or restaurant, where people take off their masks while they eat, drink and chat, are the primary situations in which COVID-19 is being spread,” said DPH Director Dr. Karyl Rattay. “It is just not safe right now to socially eat, drink, casually hang out or party with people outside of our household unless we are socially distanced and outside.”

A total of 734 Delawareans have passed away due to complications from COVID-19. The state reported 18 additional deaths since last week's update, including seven as a result of a review of Vital Statistics records. The total number of individuals who have died from COVID-19 ranges in age from 21 to 104 years old. Of those who have died, 378 were female and 356 were male. A total of 365 individuals were from New Castle County, 122 were from Kent County, and 247 were from Sussex County.

To protect personal health information, DPH will not confirm specific information about any individual case, even if other persons or entities disclose it independently.

### **Additional Updates**

**Update on COVID-19 Outbreaks in Long-term Care Facilities:** The Division of Public Health continues to investigate COVID-19

outbreaks in long-term care facilities throughout the state. The following facilities have experienced significant ongoing outbreaks since late September. Resident and staff tallies represent cumulative case totals between Sept. 25, 2020, and Nov. 12, 2020:

- Kentmere Rehabilitation and Health Care Center in Wilmington; 54 residents and 43 staff members
- Cadia Healthcare Silverside in Wilmington; 45 residents and 35 staff members.
- Country Rest Home in Greenwood; 31 residents and 20 staff members
- Regency Healthcare and Rehabilitation Center in Wilmington; 73 residents and 35 staff
- Lofland Park in Seaford, 19 residents and 10 staff
- Newly added: Cadia Helthcare Capitol in Dover; 39 residents and 17 staff
- Newly added: Delmar Nursing and Rehabilitation Center in Delmar; 19 residents and 15 staff
- Newly added: The Moorings at Lewes in Lewes; 14 residents and 12 staff
- Newly added: Oak Bridge Terrace at Cokesbury Village in Hockessin; 13 residents and 11 staff

\*Staff members may include health care and non-health care personnel, such as facility vendors or other individuals working in the long-term care facility who may not be full-time facility employees.

#### **Delaware COVID-19 Data:**

The latest Delaware COVID-19 case statistics\* cumulatively since March 11, provided as of 6 p.m. Thursday, Nov. 12, include:

- 28,016 total positive cases
- New Castle County cases: 15,113
- Kent County cases: 3,956
- Sussex County cases: 8,854

- Unknown County: 93
- Females: 15,160; Males: 12,812; Unknown Sex: 44
- Age range: 0 to 104
- Currently hospitalized: 130; Critically ill: 22 (This data represents individuals currently hospitalized in a Delaware hospital regardless of residence, and is not cumulative.)
- Delawareans recovered: 14,571
- 347,207 negative cases\*\*

\*Data are provisional and subject to change.

\*\*Data on negative cases are preliminary, based on negative results reported to DPH by state and commercial laboratories performing analysis.

Generally, Delaware is now considering patients recovered after at least 24 hours have passed since the resolution of fever without the use of fever-reducing medications and/or improvement in symptoms, and at least 10 days have passed since symptoms first appeared. Individuals who tested positive who have not had any symptoms are considered recovered after at least 10 days have passed since the date of their first positive COVID-19 test with no subsequent illness.

### **Aggregate K-12 School-Related COVID-19 Statistics:**

The Division of Public Health is providing statewide aggregate data on the total number of COVID-19 positive cases among students and staff who were in-person at a school or child care facility while potentially infectious, reported to DPH since Sept. 1, 2020. To determine the start of the infectious period, or when others may have been exposed to someone infectious, DPH looks 48 hours prior to the onset of symptoms or 48 hours prior to testing for those individuals who had no symptoms. These data only indicate potential exposure to COVID-19 in these settings, not whether exposure actually occurred.

Total number of COVID-19 positive students and staff, statewide, who were in-person at a school or child care facility while potentially infectious, reported to DPH between

Sept. 1, 2020, and Nov. 12, 2020:

CONFIDENTIAL

*\*To protect personal health information, totals less than 10 are not shown.*

**Long-term Care Statistics:**

Information related to positive cases and deaths among residents at long-term care facilities will be updated weekly each Friday, using information reported as of 6 p.m. Thursday. There have been a total of 1,568 positive COVID-19 cases cumulatively involving long-term care residents, and 423 residents of Delaware long-term care facilities have died from complications related to COVID-19.

The locations and number of deaths involving residents of long-term care facilities are:

- Atlantic Shores Rehabilitation and Health Center, Millsboro (17)
- Brackenville Center, Genesis Healthcare, Hockessin (18)
- Brandywine Nursing and Rehabilitation Center, Wilmington (34)
- Brandywine Living at Seaside Pointe, Rehoboth Beach (2)
- Cadia Healthcare Broadmeadow, Middletown (11)
- Cadia Healthcare Capitol, Dover (14)
- Cadia Healthcare Renaissance, Millsboro (9)
- Cadia Healthcare North Wilmington/Silverside, Wilmington (19)
- Country Rest Home, Greenwood (9)
- Delaware Hospital for the Chronically Ill, Smyrna (11)
- Governor Bacon Health Center, Delaware City (1)
- HarborChase of Wilmington, Wilmington (4)
- Harbor Healthcare and Rehabilitation, Lewes (23)
- Harrison House Senior Living, Georgetown (42)
- Hillside Center, Wilmington (3)
- Kentmere Rehabilitation and Healthcare Center, Wilmington (8)
- Kutz Senior Living, Wilmington (2)
- Little Sisters of the Poor, Newark (11)
- Lofland Park Center, Genesis Healthcare, Seaford (5)
- ManorCare Health Services, Wilmington (13)
- ManorCare Health Services, Pike Creek (23)
- Methodist Country House, Wilmington (4)
- Millcroft, Newark (2)
- Milford Center, Genesis Healthcare, Milford (37)
- New Castle Health and Rehabilitation Center, New Castle (12)
- Newark Manor Nursing Home, Newark (11)
- Parkview Nursing and Rehabilitation, Wilmington (26)
- Pinnacle Rehabilitation and Health Center, Smyrna (24)
- Regal Heights Healthcare and Rehabilitation Center, Hockessin (6)
- Regency Healthcare and Rehabilitation Center, Wilmington (2)
- Summit Assisted Living, Hockessin (3)
- Sunrise Assisted Living, Wilmington (2)

- The Moorings at Lewes, Lewes (3)
- Westminster Village, Dover (7)
- Five other New Castle County long-term care facilities (1 death at each facility)

Additional demographic data on COVID-19 cases and deaths, including race/ethnicity, more age-specific data and rates information by ZIP code, and information on Delaware's contact tracing efforts can be found on the Division of Public Health's My Healthy Community data portal at [de.gov/healthycommunity](https://de.gov/healthycommunity).

If you are sick with any of the following symptoms, stay home: fever, cough, shortness of breath, sore throat, muscle aches, fatigue, chills, shaking with chills, loss of smell or taste, nausea or vomiting, diarrhea, or headache or congestion or runny nose without a known cause such as allergies. Other symptoms such as abdominal pain or lack of appetite have been identified as potential symptoms related to COVID-19 and may prompt further screening, action or investigation by a primary care provider. If you are sick and need essential supplies, ask someone else to go to the grocery store or the pharmacy to get what you need.

If you believe you have been exposed to someone with COVID-19, or have symptoms of illness, make sure to distance yourself from others, particularly vulnerable populations. Older adults and people of any age with serious underlying medical conditions – including serious heart conditions, chronic lung conditions, including moderate to severe asthma, severe obesity and those who are immunocompromised, including through cancer treatment – may have a higher risk for severe illness from COVID-19.

Information about testing events, including community testing sites, permanent fixed testing sites, and free-standing sites operated by the health care systems and hospitals, will be listed on the testing section of the Delaware coronavirus

website at: [coronavirus.delaware.gov/testing/](https://coronavirus.delaware.gov/testing/).

Delawareans over the age of 18 are encouraged to download COVID Alert DE, Delaware's free exposure notification app to help protect your neighbors while ensuring your privacy. Download on the App Store or Google Play.

Individuals who have complaints about individuals violating public gathering restrictions should contact state or local law enforcement. Concerns that a business may be violating operating restrictions should be directed to: [HSPContact@delaware.gov](mailto:HSPContact@delaware.gov). Questions related to business re-openings or operations as businesses re-open should go to [COVID19FAQ@delaware.gov](mailto:COVID19FAQ@delaware.gov).

Individuals with questions about COVID-19 should call Delaware 2-1-1, individuals who are deaf or hard of hearing can text their ZIP code to 898-211, or email [delaware211@uwde.org](mailto:delaware211@uwde.org). Hours of operation are 8:00 a.m. to 9:00 p.m. Monday through Friday; 9:00 a.m. to 5:00 p.m. Saturday and Sunday. Medically related questions regarding testing, symptoms, and health-related guidance can be submitted by email at [DPHCall@delaware.gov](mailto:DPHCall@delaware.gov). Questions regarding unemployment claims should be emailed to: [UIClaims@delaware.gov](mailto:UIClaims@delaware.gov).

In addition, the Division of Public Health asks any Delaware health care, long-term care, residential, or other high-risk facility with questions or concerns to email: [DPH\\_PAC@delaware.gov](mailto:DPH_PAC@delaware.gov) or call the DPH Call Center at 1-866-408-1899 and press ext. 2.

DPH will continue to update the public as more information becomes available. For the latest on Delaware's response, go to [de.gov/coronavirus](https://de.gov/coronavirus).
