

FEMA Mitigation Grant Application Period Open

Smyrna – The Hazard Mitigation Grant Program for DR-4566 Tropical Storm Isaias funding notice has been announced. The application period started in May 2021, with up to \$2,000,000 in available funding for mitigation projects. The Hazard Mitigation Grant Program (HMGP) is intended to assist state agencies and local governments in implementing long-term hazard mitigation planning and projects following a Presidential major disaster declaration. More detailed information regarding the Hazard Mitigation Grant Program can be found at <https://www.fema.gov/grants/mitigation>.

The [Delaware Emergency Management Agency \(DEMA\)](#) is seeking eligible projects to be submitted through sub-applicants (state and local governments) for the Hazard Mitigation Grant Program. DEMA will review all pre-applications for eligibility and determine which projects will move forward in the application process by July 2021. Eligible project sub-applications will be required to be submitted to FEMA for further review by August 2021.

For additional information, or if your organization wishes to apply for HMGP funding or further inquire about mitigation grants, contact your county emergency management office, or Karen Montes at DEMA, 302-659-2243, or karen.montes@delaware.gov.
