

CHILDCARE/OUT-OF-SCHOOL CARE RESOURCES WORKSHOP SERIES

Family SHADE invites you to a free, virtual and interactive two-part workshop series focused on childcare and out-of-school care services in Delaware. Each session will be conducted by a panel of speakers providing information and resources related to childcare and/or out-of-school care, including services specific to children with special healthcare needs. The discussion will also include each organization's response to the coronavirus/COVID-19 pandemic.

The first session will cover general information about childcare resources, including searchable databases, with a focus on services for younger children. The second session will focus mostly on out-of-school care resources for school-age populations.

The objectives for this workshop series are:

- To increase knowledge and awareness of childcare and out-of-school resources available in DE.
- To gain information about specific childcare/out-of-school care programs and services available in DE.
- To learn about additional childcare/out-of-school care resources available to families of children with special health care needs.

<p>Session 1: June 15 10 am - 12 pm</p>	<p>Session 2: June 17 10 am - 12 pm</p>
